

Diigo Social Bookmarking for Students

Summary: Diigo is a social information networking tool that allows the user to bookmark, highlight, and attach sticky notes to various websites. Users can mark to read later, create lists, and tag their selected sites. Social networking features allow users to follow other users, create and join groups, and be part of a Diigo community. A console allows teachers to set up accounts, without using email, for their students. Students can access their bookmarks and notations from home or school. On their own computers, they can install a browser add-on to make the Diigo tools readily available during the search process.

Alignment to CCSS: College and Career Readiness RLA Anchor Standards R7, W6 - W8, SL2, and SL5.

Supports for a Personalized Library: Teachers can assist students in creating their own customized bookmarks, highlights, and notations to bring personal processes to research and learning. The sharing features allow students to collaborate and communicate with the teacher and each other to maximize learning. Diigo works well across multiple grade levels and subject areas to grow with students' abilities.

1. Set up an account: Go to www.diigo.com and set up an account. Click on Join Diigo.

Free Education Edition Upgrade

3. **Convert to teacher account:** Click on link B for Teachers. Sign in. Explore the links in the green box. Also, click on your account to add information to your profile.

Free Upgrades to Diigo Education Edition:

There are two Diigo education offerings:

A) School / IT administrators: qualify your domain as [Diigo Education domain here >](#)

Once approved, all new users with your school email domain who signed up at Diigo will be automatically set as Diigo basic edu accounts. Teachers / staff in your school can further upgrade their account to Diigo Educator account with a school master educator upgrade code.

(Note: Diigo Education Domain is intended only for school / district administrator who has the authority over their school domain apps implementation and is planning to roll out Diigo to the entire school.)

B) Teachers: upgrade your own account to [Diigo Educator account here >](#). (Why upgrade ?)

Sign in with your Diigo account

User Name or Email Address:

Password: [Forgot your password?](#)

Congratulations! Your account is now upgraded to a Diigo Educator Account.

You can access your [Teacher Console](#) now!

To learn more, check out Educator [FAQ](#) & [Getting Started](#) Guide.

Spread the word! Tell your friends to join you in the Diigo education community.

4. **Add an item:** Click on the My Library tab. Then, click on the blue Add+ button in the top left corner to add a new bookmark, image, or note.

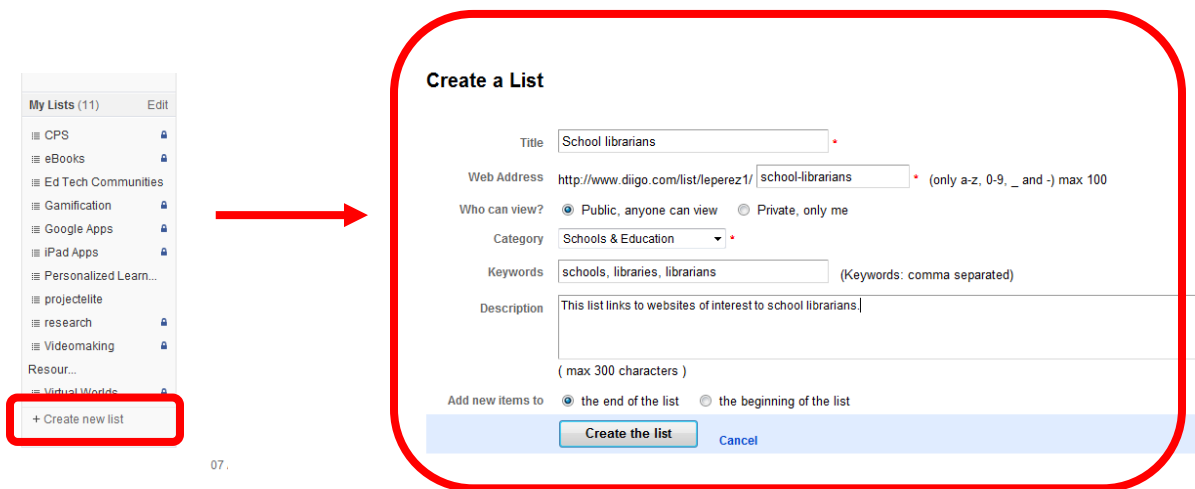

The screenshot shows the Diigo web interface. At the top, there's a navigation bar with the Diigo logo and various menu items like 'My Library', 'My Network', 'My Groups', and 'Community'. Below the navigation bar, the 'My Library' section is active, displaying a list of items. A red box highlights the 'Add+' button and the dropdown menu options: 'New Bookmark', 'New Image(s)', and 'New Note'. The list of items includes:

5. **Add a bookmark:** To add a bookmark, enter the URL, the website title, and description. If desired, enter tags, mark private or read later, add to a list, or share with a group.

6. **Add a list:** Click on the My Library tab at the top of the screen. Your custom lists are located at the bottom left of the window. Click on Create new list to add a new list. Enter a title, web address, public/private, category, keywords, and description. Note: It is not necessary to add all of these items – just what you need to identify the link later.

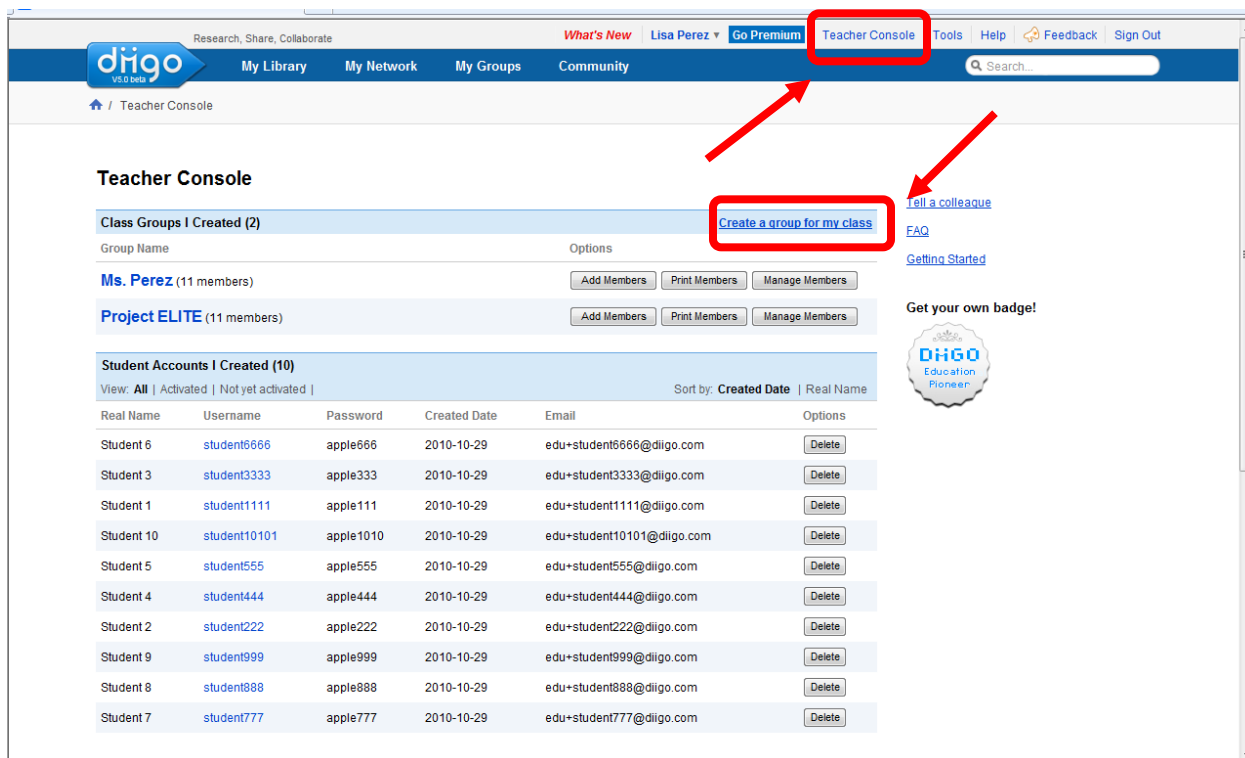

7. Groups, Networks, and Communities: Explore Diigo and join groups of interest to educators. Follow other Diigo users who have similar interests or consider joining a Diigo community.

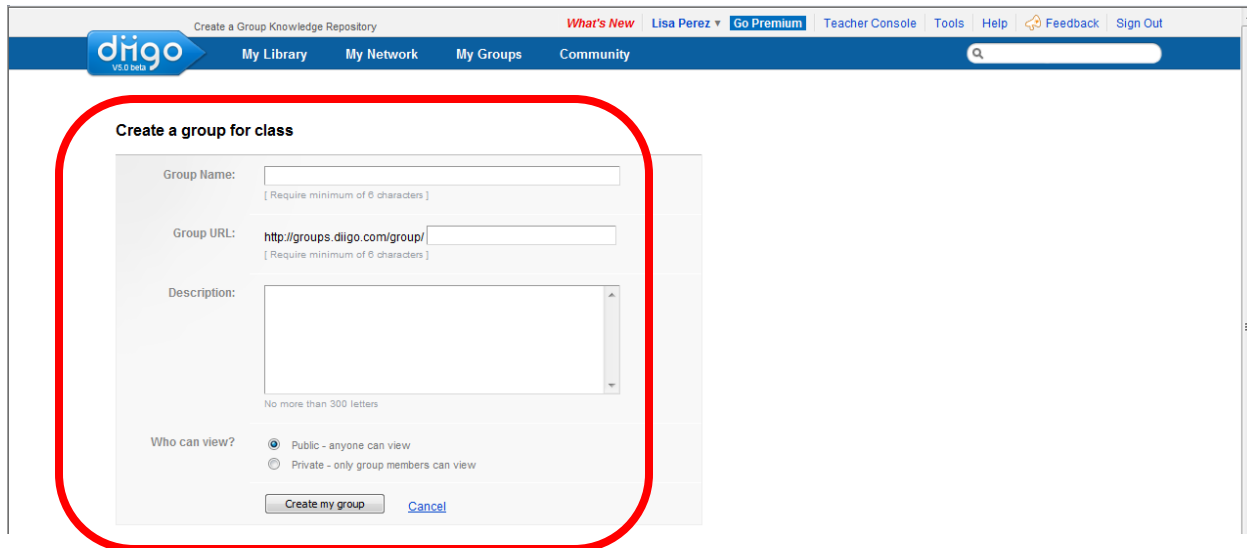

SETTING UP CLASSES

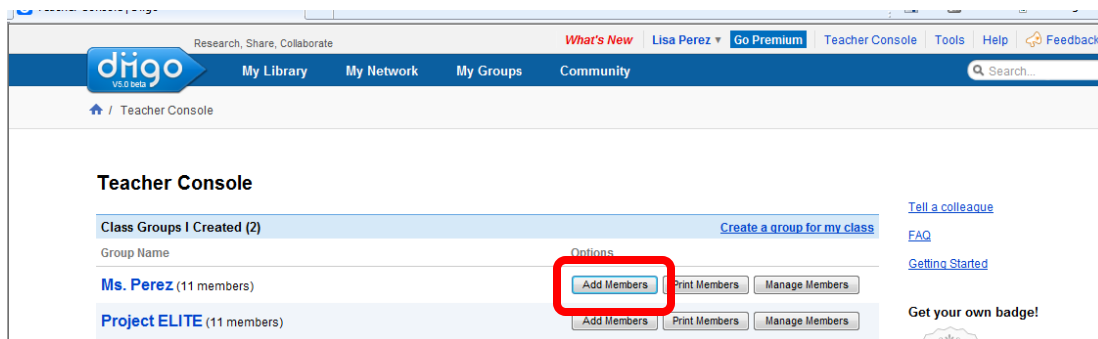

8. The Teacher Console: Click on the Teacher Console link at the top right of your screen. Then, click on Create a group for my class.

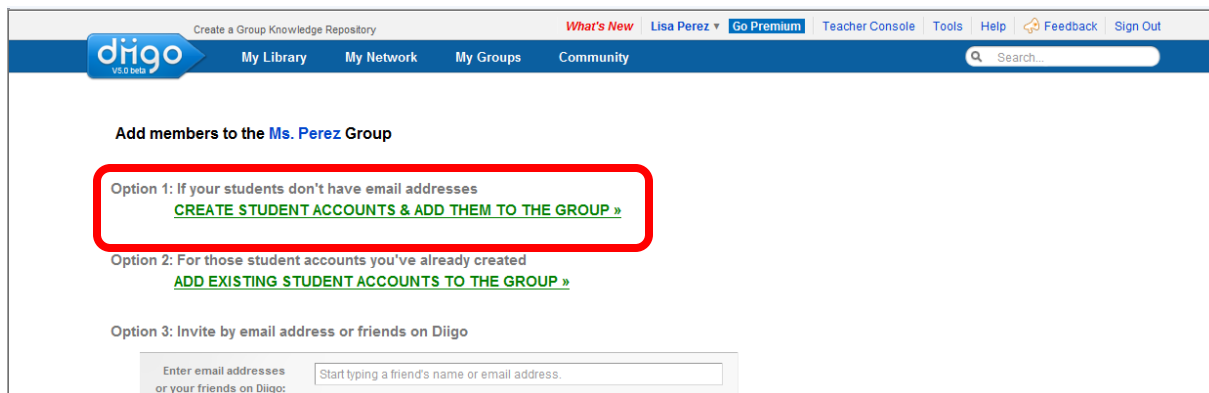

9. Create a group: Complete the form to create groups according to your classes or other groupings.

10. Adding student accounts: At the Teacher Console, click on Add Members to add your students to a group.

11. Adding students to groups: Select Option 1 to add students to a group.

12. Providing student lists: Enter your student list. Separate student names by comma or upload a CSV file.

Create accounts for students and add them to the group: Ms. Perez

You are here: [Diigo Home](#) > [Teacher Console](#) > Create accounts for students and add them to the group

Alert: You're about to create new student accounts.
Before you proceed, please make sure your students **DON'T** already have existing Diigo account (especially for domain students) to avoid account duplication.

Creating new student account under this method is best suited for:

- You intend to use these student accounts for your class use only ~ all students created will automatically added to a class group.
- Your students are in K-12 and don't have their own email account, or
- Your K-12 students do have their own email, but you plan to upload a class roster in a CSV file and create all student accounts for them at once

(For students in Higher-Ed, we recommend that they each create their own account to allow max flexibility.)

Enter Names (comma separated, e.g. Michael J, Cindy S)

Or import a CSV file
Upload a Comma Separated File (CSV) that follows this [sample file format](#)

13. Confirm account details: Confirm the account details: change the password, if desired; and make note of the teacher group to which students were added.

diigo vs.0 beta My Library My Network My Groups Community Search...

Create accounts for students and add them to the group: Ms. Perez

You are here: [Diigo Home](#) > [Teacher Console](#) > Create accounts for students and add them to the group

Confirm Account Details

Please use discretion when creating student accounts. For example, Use First Name + Last Name initial, or Nickname + Initial to protect your students' online identity.

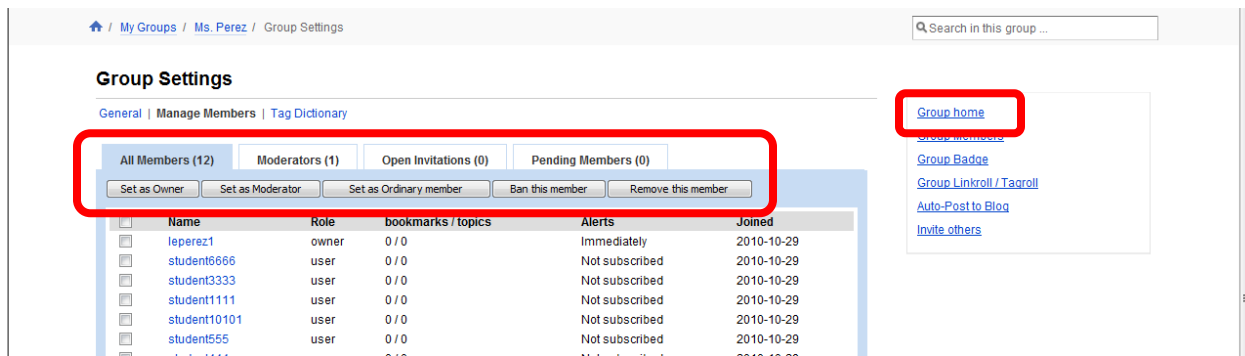

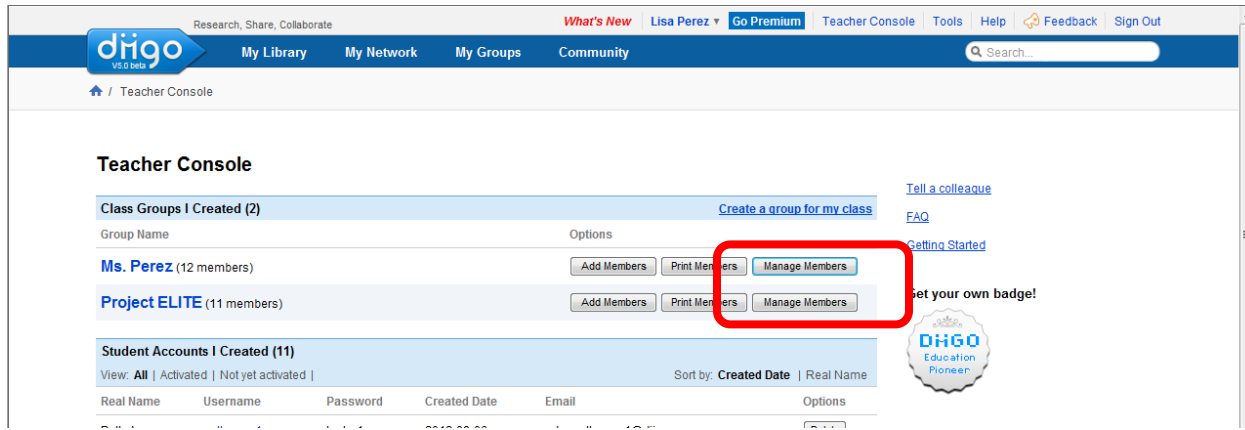

Two options for student profile:

- Completely disable personal profile info section for these student(s) (*required for students under 13*)
- Allow students to fill out personal profile info section (optional), and if filled out, *only visible to their friends*.

[What are student accounts?](#)

First or Nickname	Last Name Initial	Username	Password	Email (optional)
<input type="text" value="Polly"/>	<input type="text" value="Anna"/>	<input type="text" value="pollyanna1"/>	<input type="text" value="tester1"/>	<input type="text"/>

14. Manage members: At the Teacher Console, note that you can manage group memberships. You can determine owners, moderators, and ordinary members or ban and remove members. Click on Group home to see the group's homepage.

15. Group home: Explore your new group's home page to see how to post bookmarks, topics, images, and more.
